SHOOTING IN NORTH ADA

MELVIN JACKSON HIT THREE TIMES BY LOUIS PATTERSON FRIDAY AFTERNOON.

Melvin Jackson was shot by Louis Patterson late Friday afternoon at the home of the latter, West 6th and Cherry. Three bullets took effect, one striking the side of his jaw, another hitting a rib on the left side and glancing and the third inflicting a flesh wound in the leg between the knee and ankle. None of the wounds is thought to be serious. It is reported that domestic troubles led to the shooting.

Patterson made bond pending further developments of the case.

COUPON BONDS MAY BE REGISTERED

(By the Associated Press)

WASHINGTON, Nov. 23.—To insure against loss or theft of Liberty Bonds, owners are being urged by the Treasury to have their coupon bonds registered, although the procedure results in a great amount of work and expense for the government now that the number of bond owners runs above thirty millions. The registration can be arranged at most banks, and is done without cost to the owner. After registration, if a bond is accidentally lost, stolen, or destroyed, the government will pay it at maturity just the same, and interest checks will be mailed to the bond owner twice a year without requiring him to go to the trouble of clipping coupons and presenting them at a bank.

"The fact that bonds of the First Liberty Loan or bonds of the Second Liberty Loan are converted into bonds bearing higher rate of interest does not affect the dates on which interest is payable," explains a treasury announcement.

Interest is paid on bonds of the first loan, regardless of whether they have been converted, on June 15, and Dec. 15; on bonds of the second loan, May 15 and Nov. 15; Third Loan, March 15 and Sept. 15; Fourth Loan, April 15 and Oct. 15.

The Treasury also explains that owing to the mechanical difficulties of preparing millions of interest checks on registered bonds, coupon bonds will not be exchanged for registered bonds or registered bonds transferred on the books from one owner to another, during a month before an interest paying date of each particular loan. For example, exchanges or transfers can not be arranged for First Liberty Loan bonds between May 15 and June 16; and between Nov. 15 and Dec. 16. For the Second loan, these dates would be April 15 to May 16; and Oct. 15 to Nov. 16. For the Third loan, Feb. 15 to Mar. 16; and Aug. 15 to Sept. 16. For the Fourth Loan, Mar. 15 to April 16; and Sept. 15 to Oct. 16.

This arrangement is explained by the Treasury as follows:

"During any period when the transfer books for any particular loan are closed no transfers of registered bonds of such loan or interchanges of registered and coupon bonds of such loan will be permitted, but if requests for transfer of any such registered bonds or interchanges of any such registered and coupon bonds are received during any such closed period, the requests will receive attention upon the reopening of the books."

"The semi-annual interest will be paid to the person in whose name bonds are registered as shown by the books of the Treasury Department on the date the books close regardless of any disposition that may be made by the registered holder during the closed period. If coupon bonds are presented for exchange for registered bonds during such closed periods, the coupon next due should be detached and collected in the usual manner. If registered bonds are presented for exchange for coupon bonds during such closed periods, interest on such registered bonds will be paid in the usual manner, and the coupon bonds delivered upon such exchange after the reopening of the books will have the coupon maturing on the interest day for which the books were closed and prior coupons detached."

PERSHING NAMES FIRST TO RETURN

DESIGNATES DIVISIONS NOT NEEDED TO FORM ARMY OF OCCUPATION.

(By the Associated Press)

Washington, Nov. 23.—Gen. March announced today that authority had been given General Pershing to send back home all troops not needed in making up the army of occupation. He said General Pershing had indicated that the following units would not be required. Divisions thirty-one, thirty-four, thirty-eight, thirty-nine, seventy-four, seventy-six and seventy-eight. Coast artillery regiments forty-six, forty-seven, forty-nine, fifty, seventy-five and seventy-six. Field artillery brigades, sixty-five and hundred three. In addition General Pershing indicated following troops could be returned. Railroad artillery troops, army artillery troops, gas troops, tank corps, air forces and replacement divisions.

Troops returning immediately from England will include practically all air squadrons, sixteen construction companies and several photographic and radio sections.

OFFICIAL VOTE IN STATE ELECTION

OKLAHOMA CITY, Nov. 22.—

With receipt today of the Tulsa county vote, final official returns of the election of Nov. 5 reached the State Election Board. J. B. A. Robertson, Democrat, for Governor, received 104,132 votes; H. G. McKeever, Republican, 82,865, and P. H. Nagle, Socialist, 7,438.

The woman suffrage question received 106,909 votes for and 81,471 against.

Attorneys representing the Anti-Suffrage Association of the State appeared before the Board this evening and filed formal protest against the state election board making any declaration of the result on the suffrage question. It is claimed that there is not enough data at hand to declare the proper total vote of the election, which would be necessary before the silent vote could be determined, which is an important factor in determining the status of the suffrage question. The silent vote would count against it. Members of the election board this evening said they would place the matter in the hands of the Attorney General and seek his advice as to how to proceed. It is anticipated that in order to definitely determine the total vote in the election it may be necessary to open boxes of every precinct in the state, and this would require a court order.

Election board officials this evening did not know what would be the next step in the matter, except that they would seek advice from the Attorney General.

WELLS' IDEA OF LEAGUE OF NATIONS

LONDON, Nov. 22.—(Correspondence of the Associated Press).—"The Great Power Idea" as represented by Foreign Offices must be done away with if the proposed League of Nations is to be a success. H. G. Wells, the novelist and publicist, told a large audience at the American officers' Club.

A League of Nations, he said, was in accord with human nature and the spirit of nationality, and it was not opposed even to what Americans would call the "king business." But the Great Power idea would have to be exercised if mankind was not to go down in bloodshed and ruin.

The Great Power idea, he explained, was that each state was in conflict with all other states, and it absolutely opposed the idea of the common welfare of man.

"It was only a little more active in Berlin," he asserted, "than in the other capitals of Europe. Every foreign officer, war office and admiral has been organized to carry out the Great Power dreams."

"Foreign offices are too secretive and advantage-seeking instrument and too antiquated for the difficult task of dealing fairly with all other nations under a league of Nations. The United States is in a different position. It is a republic, with a president capable of speaking plainly to the peoples of the earth in a manner which is enough to produce an epidemic of epilepsy in European foreign offices!"

A League of Nations would have to substitute, he said, some sort of central control in which diplomacy would have to be pooled and represent the whole of mankind. If this was left to the present foreign offices to arrange he contended, it would be asking them to arrange for their own extinction.

"I have always been an advocate," he added, "of complete victory. But something more than Germany is the matter with Europe at the present time. Unless the Great Power system embodied in present-day foreign offices, pursuing secret policies, is destroyed, this war will not have been worth while."

The East Central S. A. T. C. football team will play the Edmond unit at that place this afternoon.

The Ada boys are still somewhat the worse from the effects of vaccinations and inoculations, and have not had a chance to practice as much as they would have liked, but considering the material of the team, a hard game is expected. Edmond has a good sized job on hand.

Following is the line-up of the Ada team:

Hardin, Captain.
Meadors and King, Guards.
Ferris and Hardin, Tackles.
Brents and Foster, Ends.
Newberry, Quarter.
Craig and Kerr, Half.

Stegall, Center.
Tolliver, Harkins, Baker, Subs.

The next regular meeting of the Home Economics Club will be held next Friday afternoon at 4 P. M. The subject of the afternoon will be "France," and Mr. Sears will address the Club. His subject will be "France's Contribution to Civilization." The Club members hope at this meeting to be able to announce the name of the little French child that they have adopted.

Chapel exercises on last Thursday morning consisted of a musical program. The first part was given by the pupils of Miss Lee. Those taking part were: Mercedes Fuhlman, Louise Miller, Marjorie Lee, and Violet Knight. The second part of the program was given by the S. A. T. C. orchestra led by Mr. Cruz.

The numbers especially enjoyed were the songs in which the entire S. A. T. C. joined in the choruses. H. F. Mathis of the S. A. T. C. had charge of one division of the military training this morning in the absence of Mr. Newcomb.

It has been rumored that the S. A. T. C. unit at Alva has been discontinued. While this is not confirmed, Second Lieutenant, Raymond W. Cook who has been in command there has been ordered to report to the East Central unit for duty. A wire from him to President Gordon states that he will be here early next week.

Lieut. Smiser, who was with the Ada unit at first, has been transferred permanently to Durant. However, with the coming of Lieut. Cook the Ada unit will have three lieutenants, indicating that the war department recognizes the importance of this unit and expects excellent results.

Cold weather came in a bit late, but the old man Winter appears to be close by now.

It is too bad that the football season is so nearly over, now that one has time to think of football.

It is seldom that a man is so important in any position that his place cannot be filled equally well by some one else.

The charge used to be made that the Democrats would not agree among themselves. The way some of the so-called Democratic newspapers throughout the country are attacking the Democratic leaders in congress rather bears out this charge. Who ever heard of a Republican newspaper criticizing the leader of the Republican party in congress?

Having massed several millions in the manufacture of automobiles, Henry Ford announces that he is quitting the active management of that business and will enter the newspaper field. Henry showed good judgment in making his stake before launching out on the uncertain sea of journalism. Evidently Ford, like Andrew Carnegie, has determined to die poor.

The spread of anarchy in Germany and Russia is the cause for much worry in other countries. The best way to keep down anarchy in these countries is to let each country work out its own salvation. The murder-

ers and cut-throats now in control in Russia will soon be the victims of their own terrorism, and peace again will reign. Of course, it is lamentable that so many innocent men and women and children must suffer, but like other nations in history, it will be better for Russia and Germany both to come out of the mess without outside help.

OKLAHOMANS TAKE CROSSES OF HONOR

OUT OF FORTY-FIVE MEN CITED FOR GALLANTRY, TEN ARE FROM THIS TOWN

The New York Times of November 19 gives the names of forty-five soldiers who have been awarded the distinguished Service Cross of the United States as a result of gallantry in France. Ten of these forty-five are from the state of Oklahoma, six are from Texas, five from Minnesota, three from New York, two from Arkansas, two from California, and one each from the states of Montana, Missouri, Nebraska, Ohio, North Dakota, Indiana, Iowa, Oregon, Wisconsin, Alabama, North Carolina, and Michigan.

The men from Oklahoma are as follows: Sergt. John B. Cochran of Oklahoma City, Sergt. George V. Abbott of Norman, Sergt. John E. Morphey of Trousdale, Sergt. William G. Greenfield of Logan, Corp. Wilbur S. Light of Oklahoma City, Corp. Will E. Ball of Wynnewood, Private Jack Conan of Tulsa, Priv. Joseph A. Buffalo of Bixby, Priv. Bart L. Shadrick of Sapulpa, and Priv. Charlie L. Kearns of Drumright.

This is the highest honor to be bestowed upon a soldier in service. The honor was won in all cases by gallantry seldom paralleled in history. Corp. Light of Oklahoma City, for example, is cited thus: "His daring and bravery were conspicuous. He charged a German machine gun single-handed, killing the gunner and putting three others of the crew to flight. During this action he killed six of the enemy. He showed rare leadership on numerous occasions in forming groups and leading them against machine gun nests."

The fact that Oklahoma, with a population only half as large as Texas, and about half as large as that of New York City, got ten crosses out of forty-five, is a cause for Oklahoma to be proud. This does not mean, of course, that the proportion will hold good in all lists of those receiving this distinguished honor, but it does show that for the number of men engaged, Oklahoma is far outstripping the older states.

A few weeks ago when the political campaign was seething, the republicans in the north charged that men from the south were protected and put in places of safety. The citations for gallantry indicate that the boys refused to stay in places of safety.

LIBERTY

Human interest is the keynote of William Fox's production of Les Miserables according to the dramatic critics of New York City who witnessed the initial showing of the picture when it was presented at the Lyric theatre, New York City. The production also was praised because of the care and accuracy with which the Victor Hugo story had been followed. William Farnum, in the role of Jean Valjean, generally was credited with having scored the triumph of his screen career.

It was the judgment of The New York Herald reviewer that "the play probably is as close an approach to literature as has been accomplished on the screen," and The Morning Telegraph declared "the visualized work is every bit as strong as the printed word."

Following are a few of the comments: "There are people who are continually crying for better pictures. To them we would say, 'See Les Miserables.'—New York Tribune.

"Quite the best picture that has been seen hereabouts."—N. Y. Times.

"In strength of plot and human interest Les Miserables surpasses the memorable 'Honor System.'—New York American.

"A note of poignant human interest was dominant through it all."—New York Herald.

"An excellent example of what the movies can do for the classics of literature."—N. Y. World.

"Months of preparation have been spent and the splendid photoplay showed fine evidence of this fact."—New York Globe.

"A delicious piece of character work. It was a triumph of art for William Farnum."—New York Evening World.

Who is "Old Dragus"?

Osteopathy and the "Flu"

During the epidemic of Influenza, I treated forty-nine cases, of which, seven had pneumonia. There were no deaths, and all are out of danger. Also there were many who had developed first symptoms, and took treatment at my office, and in every case where they kept up regular treatment, they escaped without contracting the disease, and at the same time were nursing others who had "flu." I have two brothers who are osteopaths, and among their patients during the epidemic there have been no deaths. Not one in either of our families contracted the disease. So, like other diseases, it is a matter of choice, if you have it, or take Osteopathic treatment in time, and prevent it. There is no good reason for being sick; if one can treat the sick and cure them, why let them get sick? If you want real insurance against sickness, take Osteopathic treatment, and do not wait until you are bed-fast. You can feel your sickness coming on long before you get sick enough to go to bed, and this is the time to get busy, if you want to abort a spell of sickness.

I find many who have partially recovered, and have their chronic ailments made worse, or have after-effects, they do not feel right since having the "flu." You can have that tired feeling removed, and the soreness treated out; many are doing so; and others would if they realized they could get relief. Try Osteopathy, and you will always be glad you did.

Do not forget that the Osteopath is an educated physician. The course of study in Osteopathic Schools, is four years. Do not forget that we have quack imitators, that try to give the same treatment, that have no certificate, and are not doctors and have no right to your money. They could not collect it by law.

Anyone who has a mind that is alive and can reason, knows that a doctor who spends four years in school, is better qualified than one that takes a mail course, or attends a little so-called school a few months or weeks. You surely realize that that is less education than it takes to make a good plumber.

If these people were safe to treat you, they would have a CERTIFICATE from the State Board of Medical or Osteopathic Examiners. You cannot buy a Certificate; you can buy all the diplomas you can carry. There is nothing to hinder anyone from giving or issuing diplomas.

If you will make a little inquiry among your friends, you will find many that I have treated. You will also find that they are pleased with their treatment, and grateful for the results. You will also find that ninety per cent of these people have had Chiropractic or Mechano Therapy before they came to me.

The idea that they can do no harm if they do no good, is not borne out by facts. Read the following articles clipped from newspapers. I could publish many more had I the space. Remember that the same force that would adjust a bone would put one out of place if wrongly used.

The Desert News (Salt Lake City) of February 9th announces that a default judgment for \$10,000 damages was entered by Judge J. L. The action was for damages for alleged malpractice, it being alleged that by reason of so-called treatments given to the three-year-old daughter of the plaintiff the vertebrae was broken and separated, the nerves destroyed and the child's lower limbs rendered paralyzed and helpless.

The New Engine

We have received our new Engine, ordered last January, and for several weeks will be tearing out the old and putting in the new. While doing this work we will have only one engine to depend on for service, so there will probably be some interruptions. We trust they will be few and of short duration and that our customers will bear with us patiently. For two or three Sundays, beginning with the 10th, the plant will be shut down from two to six hours while making changes in steam lines necessary to make connections for the new engine.

FOR FOOD FIT TO FIGHT ON

The Government is just as particular in the selection of foods as it is in the choice of men. Both men and materials must be the best obtainable.

CALUMET BAKING POWDER

Bears the distinction of having been selected for Army and Navy use. The choice where no chances are to be taken.

Calumet is pure, wholesome and dependable. That's why it has won Uncle Sam's selection—why it should win yours—and will if you'll give it a trial.

It has proven in millions of bake-day tests that it is the best baking powder ever made. That's why it is the biggest-selling brand in the world today.

You use less of Calumet because it is the highest grade baking powder. One teaspoonful is equal to two teaspoonfuls of most other brands.

Calumet contains only such ingredients as have been approved under the Acts of Congress concerning wholesomeness of foods.

YOU SAVE When You Buy It
YOU SAVE When You Use It

*You save materials it's used with
One trial will convince you*

It is the most economical of all. Millions of housewives use it, so do the leading Domestic Science Teachers and Cooking experts.

SEND FOR FREE CALUMET WAR-TIME RECIPE BOOK

It contains scores of selected recipes that will help you greatly in the use of corn and other coarse flours.

EDITOR'S NOTE:

Through advertising and distribution of War-Time Recipes, the Calumet Baking Powder Co. is lending the U. S. Food Administration valuable aid in advocacy of sensible food conservation. Their compliance with the Government's wishes and the shaping of their publicity policy along lines that will "help win the war" deserves hearty commendation.

HOW RHEUMATISM BEGINS

The excruciating agonies of rheumatism are usually the result of failure of the kidneys to expel poisons from the system. In a majority of cases rheumatism is an indication that uric acid has pervaded the system. If the irritation of these uric acid crystals is allowed to continue, incurable bladder or kidney disease may result. Attend to it at once. Don't resort to temporary relief. The sick kidneys must be restored to health by the use of some sterling remedy which will prevent a return of the disease.

Get some GOLD MEDAL Haarlem Oil Capsules immediately. They are a standard world-famous medicine in use for over two hundred years. They have brought back the joys of life to countless thousands of sufferers from rheumatism, lame back, lumbago, sciatica, gall stones, gravel and other affections of the kidneys, liver, stomach, bladder and allied organs.

They will attack the poisons at once, clear out the kidneys and urinary tract and the soothing healing oils and herbs will restore the inflamed tissues and organs to normal health.

GOLD MEDAL is the original Haarlem Oil imported direct from the home laboratories in Haarlem, Holland, by the Genuine Haarlem Oil Mfg. Co., Haarlem, Holland. American office, 116 Beekman St., N. Y. All others are imitations. Ask for GOLD MEDAL and be sure the name GOLD MEDAL is on the box. Three sizes, at all good druggists.

A NERVOUS WEEK

From Three Years' Suffering. Says Cardui Made Her Well.

Texas City, Tex.—In an interesting statement, Mrs. G. H. Schill, of this town, says: "For three years I suffered untold agony with my head. I was unable to do any of my work."

I just wanted to sleep all the time, so that was the only case I could get, when I was asleep. I became a nervous wreck just from the awful suffering with my head.
I was so nervous that the least noise would make me jump out of my bed. I had no energy, and was unable to do anything. My son, a young boy, had to do all my household duties.
I was not able to do anything until I took Cardui. I took three bottles in all, and it surely cured me of those awful headaches. That has been three years ago, and I know the cure is permanent for I have never had any headache since taking Cardui.

Nothing relieved me until I took Cardui. It did wonders for me."
Try Cardui for your troubles—made from medicinal ingredients recommended by medical books as being of benefit in female troubles, and 40 years of use has proven that the books are right. Begin taking Cardui today. NC-13

HIGH HONORS ACCORDED RED CROSS CHAPTER

Recently a searching questionnaire was sent out from Red Cross headquarters concerning the work being done by each chapter in the way of civilian relief. The following letter has been received concerning the chapter here:

"I am very glad to inform you that you have been placed in Class A in the efficiency contest. I know you will be glad to know this, for I am sure you have worked hard and deserve such standing."

This is fine testimonial to the effectiveness of the work in this county, for the questionnaire was a searching inquiry into what has been done and what is being done now. R. W. Simpson is the chairman and Mrs. Orville Snead secretary of this part of the work.
